

## ORTHODONTIST ASSOCIATE OPPORTUNITY WITH ORTHODONTISTS ASSOCIATES OF WESTERN NEW YORK

*Opportunity to Serve the Olean, NY Community*

Orthodontists Associates of Western New York has a rich history that dates back to 1951. The founding doctors pioneered early orthodontic treatment at a time when it was not widely practiced by others in the field. Their approach revolutionized orthodontic care as we know it today and is still applied regularly in our practice.

Throughout our history, we have remained committed to staying at the forefront of orthodontics and technology. We continually invest in state-of-the-art equipment and tools to ensure that we can provide the most effective and efficient treatments to our patients.

We truly believe in putting patients at the center of their own care. Our mission is to cultivate an environment where patients feel comfortable sharing their concerns, exploring options, and making informed decisions about their well-being. We take a collaborative approach to treatment, and our top priority remains helping each patient achieve optimal health outcomes through empowering them with knowledge and support throughout their journey. By placing the patient first in all that we do, we're confident that we can make a significant impact on each individual's life.

This associate opportunity – with a pathway to partnership – is in support of the community of Olean, NY. Nestled into the enchanting mountains, the town of Olean has an energetic spirit and serves as the center for Cattaraugus County. Rich with outdoor recreational opportunities, including proximity to renowned ski resorts and the beautiful Allegheny National Forest, which is known as a wilderness playground - named as a national “amazing spot”. This is a wonderful place to live, work and serve.

We are proud of our legacy, and we look forward to adding new committed providers to our family to help us continue to serve our community with excellence for many years to come. With seven locations throughout the Western New York area, we are looking for an orthodontist interested in working together to support our mission, leading a great and dedicated team, and providing excellent care.
